

MOLD ELIMINATION

Our 2 step process gives you the **All Clear** in just one visit and requires **no demolition.**

Using patented dry fog technology, we fill up the entire volume of space within a building with an EPA/Health Canada approved sterilant that destroys mold, bacteria and viruses on contact.

The process is so effective, we guarantee our results.

EFFECTIVE & COMPREHENSIVE

Not only are surfaces treated, the fog denatures spores that are airborne, in furniture, fabrics, in air ducts and behind walls.

MORE AFFORDABLE

We kill all mold spores in just hours saving you the expense of traditional, destructive remediation processes.

FASTER & LESS INVASIVE

Old school remediation methods can take weeks. With dry fog technology the entire problem can be taken care of in as few as 4 hours.

LASTING PROTECTION

The second step in our system is just as advanced and exciting as the first. We dry fog an antimicrobial protectant that offers years of protection.

DELIVERING A
HEALTHY
INDOOR ENVIRONMENT

RESIDENTIAL & COMMERCIAL

- ✓ Non-toxic elimination of mold, virus and bacteria.
- ✓ Advanced, patented dry fog technology.
- ✓ Guaranteed results.
- ✓ Free estimates.

PATHOGEN ELIMINATION

Our patented dry fog technology was originally developed to fully sterilize hospital rooms.

The fog reaches into every pore of your home or building and eradicates virus and bacteria on contact.

Our treatment is proven effective against Human Coronavirus, Flu Virus, MRSA, Staph, CDiff, Anthrax, Hand Foot Mouth, H1N1, Ringworm and more.

1

VIRUS & BACTERIA ERADICATION

Our patented dry fog system employs EPA/Health Canada approved products to eradicate virus and bacteria on contact.

2

LASTING & CONTINUOUS PROTECTION

The second step in our process adds an antimicrobial layer that provides protection up to 90 days.

3

STAFF & CUSTOMER CONFIDENCE

All Clear is the most comprehensive option available to protect your staff and customers from fomite transmissions.

4

NON-TOXIC TREATMENT

The products we use are non-toxic to people, pets and the planet.
